

When will you need

our China Network?

With 100 logistics service bases and over 3,000 people in China, we can respond to any need that your supply chain demands.

Ocean Freight Consolidation Service TO AND FROM CHINA

Arrow International presents an extensive, high-speed shipping option to provide shippers and receivers – regular rapid transit services throughout key trade lanes in China under a single bill of lading and with the security of single control.

Arrow International offers OEM and supply base shippers of FCL and LCL freight alike an opportunity to gain from an expedited low cost ocean cargo service to transport finished goods as well as manufactured items.

Arrow International provides global visibility for inventory in the supply chain and a 'network' overview on the management of global inventory to drive improvements in customer service and reductions in stocking levels.

SELL -OR- SOURCE

...does your business model include the China market?

Nippon Express has the ability to offer extended and integrated global logistics services on a wide geographic basis in the PRC.

ROAD & RAIL FREIGHT SERVICES

to/from our network of over 30 domestic cargo depots provided by our transportation management associates

CUSTOMS CLEARANCE SERVICES

performed at entry port or provincial processing facilities by our company personnel educated and licensed in variable regulatory trade and finance fields of expertise

MATERIAL HANDLING SERVICES:

warehousing, distribution, FTZ, VMI and cross dock strategies provided in our quality system registered service centers (ISO 9001:2000)

VALUE - ADDED SUPPLY CHAIN EXECUTION SERVICES:

postponement, order configuration and light assembly offered at our multi-user cargo handling facilities that offer flexible and scaleable pricing models

The recruitment, training and retention of high-caliber staff; an ability to manage change; systems expertise; innovative and creative solutions; a 'can-do' attitude; value-added services; continual service improvement and superior customer service – are all examples of areas where our logistics service bases position themselves to ensure our customers gain a competitive advantage.
