

# SERVICE TO INDIA

## Ocean Freight Consolidation Service to India

**Arrow International** controls security from the moment cargoes are accepted for ocean transport in the USA and India service bases. Your cargo is bar-coded and monitored as it passes through each step of the shipment's journey.

**KEY**  
 ● = Nippon Express Logistics Service Bases

**Arrow International** benefits USA exporters to India by extending volume-shipping advantages to even the most modest-sized shipper by consolidating with other LCL shippers to create a full containerload at far more attractive volume pricing.

**Arrow International** reduces the delivery cycle through its exclusive CFS operation network methods in the USA and import shipments move as rapidly as possible through congested port areas.

# VALUE-ADDED LOGISTICS SERVICES IN INDIA

## BONDED EXPORT UNIT FACILITATION SERVICES –

we compress the cycle time by administrating the cargo flow on imports, exports and warehouse transfers from/to these Government of India production-processing areas such as EOU (Export Oriented Units), EPZ (Export Processing Zones), STP (Software Technology Parks).

## REVERSE LOGISTICS –

a dedicated team of cross-functional professionals from logistics, systems and finance analyze then design solutions with technicians.

## RO-TO-POOL SERVICES –

repair, replacement and return of finished products or OEM components require efficient and expedient service performance from our integrated logistics team. Financial institutions and India Customs enact specific provisions to avoid double payment of duty on goods that fall under repair and return class.

## SPARES DISTRIBUTION –

we source the spares from manufacturing plants, suppliers or vendors in India from our network of distribution center service bases then coordinate the transportation modeling with our global logistics division.

**ARROW INTERNATIONAL exclusively operates 27 Bonded Container Freight Stations (CFS) located at major import markets across the U.S.A.**
