

High-quality international forwarding services expand capabilities domestically

- Whether your freight forwarding needs require domestic move, LTL trucks, single small packages or oversized cargo, the DAT service has the flexibility to utilize all service levels to meet your demands at a competitive price.
- Existing truck routes such as MTA (Midwest Time Advantage) and SAT (Sea, Air and Truck), which originally were for international freights, are the backbone of DAT.

Service Description

- Three (3) service levels:
 - SL1 - NEXT DAY DELIVERY
 - SL2 - SECOND DAY DELIVERY
 - SL3 - DEFERRED DELIVERY
- You can access SKYNET, our online service tool which contains e-mail notification and real-time data capabilities, to track and trace your shipments.
